

Website Quality Assurance Bug Report.

Issue Description	Screenshot / Media Link
Category icon is positioned underneath the cart icon.	View Screenshot
The 'Scroll to Top' button functionality is not working.	View Screenshot
Additional product images are broken.	View Screenshot
The image magnifier is not displaying the image and shows a broken image symbol.	View Screenshot
The image thumbnail displays correctly, but the inner page shows 'No Image Available.'	View Screenshot
Any user can submit a review, and it is published without admin approval.	
Inconsistent product card size.	View Screenshot

Issue Description	Screenshot / Media Link
The 'Add to Cart' and 'Buy Now' functions use the same icon, which may cause user confusion.	View Screenshot
The cart still displays a total amount even after all products have been removed.	View Screenshot
The 'Continue Shopping' button does not redirect to any page.	View Screenshot
The search input does not show live results; users must press Enter to view results.	View Screenshot
The 'Contact Us' links are not working.	View Screenshot
When clicking on 'E-Buy,' categories initially expand but then immediately collapse.	
Clicking 'Buy Now' triggers a notification that the product was added to the cart, but the product is not present in the cart.	View Screenshot

Issue Description	Screenshot / Media Link
Miss leading ui, Shows dropdown in tab view, but no actions	View Screenshot
Broken ui while adding items to cart	View Screenshot
The cart, e-shop, and sign-in buttons are not working on mobile devices on pages other than the homepage.	View Screenshot
The "CLICK HERE" button is a poor call-to-action because it is vague, non-descriptive, and does not clearly indicate what action will happen (e.g., Buy Now or Add to Cart).	View Screenshot
On mobile, the logo overflows and overlaps the horizontal line in the header, causing a layout alignment issue.	View Screenshot
There is no option to close the category dropdown on mobile.	View Screenshot
The logo does not redirect to the homepage.	
The call-to-action buttons (cart, wishlist, and buy now) are unclear, and unlabeled, making it difficult for users to understand their purpose.	View Screenshot
